

Sorry but Gregory Jordan Norris is wrong,
Radio City night 1 was NIV 1,000th Show

October 5th 2018

↳ NINIVE: BC CANCELLATION
OF LOUISVILLE SHOW

Steve Kuchern AKA heavenly-bearded
Argon Ballroom, Chicago, IL
Location: Rail, Robin Side

We showed up very early, 2:30 PM
Wednesday before the show, first in
line to secure my Finck rail spot.
I had the pleasure of chatting with
Trent's stage hand. He told us that
we're doing Trent proud, gave me
a TR guitar pick. We were
joined by many friends throughout
the evening. Saw a lot of crazy
things while camping on the
streets of Chicago. The show itself
was fantastic. I'm never one to
complain about a setlist at a NIV
concert. The performance was fire.

STARFUCKERS INC.

I left the rail at the beginning
of Hurst so I could get right back
into line and get my spot reserved
for the next day. Camped out
overnight with friends again for
round 2. This gave me time to
listen to my recording and it
really really sucked lol.

A special thank you to Sarah K for helping me sneak the device in. She hid it in her bra under her breasts and it ended up setting off the metal detector. Security gave it back to her and let her in.
