Steve Knicker AKA heavenly-bearded
Aragon Ballroom, Chicago, IL
Location: Rail, Robin Side

Once again my friend Alex Bissen
AKA Lexton snuck the device in
for me. This time it was under
his nuts, security made the
mistake of letting us in early.
They made us go back out and
re-enter with extra patdown
since the bosses were watching.
The device set off the metal
detector and it came down
to show us what you have
or you can't come in. They
took the device!!! Thank God
we made friends with security
camping out there for those nights.
One of them was nice enough
to recover it for us even though
they weren't supposed to. I wasn't
able to record, probably for the best
as my last two recordings sneaked
anyways. The show was amazing
as always. This might be my
most memorable MIA show I've
ever been to because I got to
spend it with my good friend
Paul Cramer's AKA witte, 15 years in the
making.

I've been to a lot of N/4
concerts and these might go
down as my all time favorites.

All the love in the world
